**EMERGENCY MANAGEMENT/
DISASTER PLANS**

ISSUE DATE: **3-10-03**
04/10/17

Each school shall have an emergency management disaster plan on file in the principal's office. A warning system and appropriate procedures shall be known and provided to all personnel in the respective schools. Periodic practice drills shall be held at which time all pupils and personnel shall act in accordance with specific directions as set forth in that school plan.

In the event of an emergency, schools shall be dismissed only by the superintendent's office. Each school principal shall use his/her judgment in implementing the appropriate disaster plan. The superintendent's office shall provide all possible information and subsequent directions to the school principal. Principals should refer to the Emergency Operation Procedures Handbook for policies and procedures on natural and nuclear disasters.

Each school has a current disaster plan and conducts regular safety drills (fire (8), tornado).

The school district shall provide facilities that are safe, clean and functional.
