

Mississippi Military Star School

St. Martin North Elementary School proudly supports Military Families in our area, and we want to welcome you to join our Yellowjacket Family. We hope to provide you with an easy transition to the St. Martin Community. Our school consists of kindergarten through third grade.

Services we provide to support personal and academic growth of incoming and current military families:

- Student Ambassadors will be available to assist in greeting and familiarizing newcomers to the school. The Ambassadors will aid the transition and offer support.
- Our counselor and registrar and the School Military Point of Contact (SMPOC) will offer academic guidance to aid the incoming students, as well as ensure parents that the academic needs of the student will be met.
- Resources and Educational opportunities for the student could include the Wings Program for Gifted and Talented, access to the Department Special Education, or a referral to the TST process to assist students with academic support.
- Military School Liaison and Counselors are available as the mental health challenges of a Military student are unique. The SMPOC will assist in finding the correct assistance for our students.

School Events: Each November, St. Martin North Elementary celebrates our Veterans on Veterans' Day. We invite our Veterans to a breakfast and honor and recognize their service to our country. April is when we celebrate Military Families: We will have a "Purple Up Day" to show our support. On April 6, 2023, all students and staff are asked to wear Purple with blue jeans.

School Liaison Contacts
