All administrators and faculty members are given access to the most current academic frameworks and standards available from the Mississippi Department of Education. Academic frameworks and standards are provided to teachers both digitally through internet links and in a flash-drive file at each campus. District and school-level professional development is furnished in an ongoing effort to build teacher capacity in instructional best-practices. In addition, teachers work together to align resources and instructional pacing to the Mississippi College and Career Readiness Standards. Input from parents, students, staff members, faculty members, and administrators is obtained annually regarding district-provided curriculum, resources, and information.
